INVESTMENT OBJECTIVE

Veripath's objective is to generate attractive, consistent, inflation hedged returns and to preserve capital by investing in a non-operated, geographically diversified portfolio of farm-land. The Veripath team has been investing in farmland continuously since 2007. Veripath has developed a leading-edge technology platform to evaluate, monitor and manage farm-land including the use of satellites, artificial intelligence tools and factor-based portfolio screening and construction models.

LEGAL NOTICE

An investment in Veripath Farmland LP, Veripath Farmland (UR) LP and Veripath (UR) Fund (collectively, “**Veripath**”) is highly speculative and involves a number of risks, including due to the nature of Veripath’s business, the risks inherent in Veripath’s investment strategies and the fact that Veripath has limited operating history. Only investors who are willing to rely solely upon the ability, expertise, judgment, discretion, integrity and good faith of Veripath Farmland Partners LP, the manager of Veripath (the “**Manager**”), who do not require immediate liquidity of their investment and who can afford a total loss of their investment, should consider an investment in Veripath. Prospective investors should read the Offering Memorandums **in their entirety** and consult with their own professional advisors to ascertain and assess the income tax, legal, risks and other aspects of their investment in Veripath. There is no guarantee of performance and past or projected performance is not indicative of future results. No reliance should be placed on the completeness of the information contained in this document. This document is not intended to be a comprehensive review of all matters concerning the Funds. Past performance does not guarantee future results. The AUM is calculated as of January 26, 2026 and includes all assets contracted for acquisition under a binding contract (and takes into account management’s expectation as to the debt/equity financing for such acquisitions). Number of acres includes farmland contracted for acquisition which is under a binding contract. NAVs are calculated as of the date at which the NAVs are published following the quarter end.

No securities regulatory authority has assessed the merits of, or expressed an opinion about the securities described in this document (collectively, the “**Securities**”), or the information contained in this document, or the Offering Memorandums. The Securities referred to herein will only be offered and sold in such jurisdictions where they may be lawfully offered for sale and, in such jurisdictions, only by persons permitted to sell such Securities. The Securities referred to herein may only be sold to prospective investors who reside in certain provinces and territories of Canada and who meet certain eligibility criteria on a basis which is exempt from the prospectus requirements of applicable Canadian securities laws. The Securities have not been, and will not be, registered under the United States Securities Act of 1933, as amended (the “**U.S. Securities Act**”) or the securities laws of any state of the United States and may not be offered or sold within the United States or to or for the account or benefit of U.S. persons (as such term is defined in Regulation S under the U.S. Securities Act).

No Certainty of Performance: The data contained in the table titled ‘Series Returns’ and ‘\$10,000 Investment in Veripath vs Canadian Farmland Benchmark’ is historical only and is not indicative of future results. There is no guarantee of performance and past performance is not indicative of future results.

Purchaser’s Rights: Securities legislation in certain of the provinces and territories of Canada provides purchasers with a statutory right of action for damages or rescission in cases where an offering memorandum or any amendment thereto contains an untrue statement of a material fact or omits to state a material fact that is required to be stated or is necessary to make any statement contained therein not misleading in light of the circumstances in which it was made (a “**misrepresentation**”). These rights, or notice with respect thereto, must be exercised or delivered, as the case may be, by purchasers within the time limits prescribed and are subject to the defenses and limitations contained under the applicable securities legislation. The following summary is subject to the express provisions of applicable securities legislation and the regulations, rules and policy statements thereunder. Purchasers should refer to the securities legislation applicable in their province or territory along with the regulations, rules and policy statements thereunder for the complete text of these provisions or should consult with their legal advisor.

The statutory rights of action described below are in addition to and without derogation from any other right or remedy that purchasers may have at law. If you are subject to the laws of Ontario, Saskatchewan, Nova Scotia or New Brunswick, those laws provide, in part, that if there is a misrepresentation in an offering memorandum, which was a misrepresentation at the time that you subscribed for the securities, then you will be deemed to have relied upon the misrepresentation and will, as provided below, have a right of action against the issuer of the securities (and, in certain instances, other persons) in respect of the securities purchased by you for damages, or alternatively, while still the owner of any of the securities purchased, for rescission, in which case, if you elect to exercise the right of rescission, you will have no right of action for damages against the issuer of the securities provided that: (1) no person or company will be liable if it proves that you purchased the securities with knowledge of the misrepresentation; (2) in the case of an action for damages, the defendant will not be liable for all or any portion of the damages that it proves do not represent the depreciation in value of the securities as a result of the misrepresentation; and (3) in no case will the amount recoverable in any action exceed the price at which the securities were purchased by you. In Ontario, Saskatchewan or New Brunswick, in the case of an action for rescission, no action may be commenced more than 180 days after the date of the transaction that gave rise to the cause of action. In the case of any action other than an action for rescission, (A) in Ontario, no action may be commenced later than the earlier of (i) 180 days after you first had knowledge of the facts giving rise to the cause of action, or (ii) three years after the date of the transaction that gave rise to the cause of action, and (B) in Saskatchewan or New Brunswick, no action may be commenced later than the earlier of (i) one year after you first had knowledge of the facts giving rise to the cause of action or (ii) six years after the date of the transaction that gave rise to the cause of action. In Nova Scotia, no action (for rescission or otherwise) may be commenced later than 120 days after the date on which payment was made for the securities. If you are subject to the laws of any other province or territory, reference should be made to the full text of the applicable provisions of the securities legislation in such provinces or territories or consultation should be undertaken with professional advisors.

*Statistical data begin as of 2008 and run to year-end 2024. Canadian farmland benchmark return data is raw acre weighted data from provincial returns (StatsCan) from 2008. The above quarterly return data since inception for the Veripath investment team encompasses acquisitions/dispositions/holdings across 6 close-ended funds (beginning in 2008). Veripath (collectively the “Farmland Funds”) represent all the funds with an investment objective of investing in Canadian farmland managed by the Veripath investment team in such period. The returns in the table aggregate all transactions undertaken by the Farmland Funds as if they were undertaken by the same fund with returns disaggregated into quarters and dollars weighted. The return data is provided without any impact from leverage in the Farmland Funds (open-ended funds are moderately levered, close-ended funds were not) and represent returns to the Farmland Funds – land appreciation and rents (only land appreciation used above) - (i.e., it does not account for fund level fees and expenses (including management/performance fees)). Accordingly, such returns would not reflect the specific returns received by investors in the various series of the Farmland Funds. The closed-ended Farmland Funds did not produce quarterly independent NAVs while the open-ended funds do. However, the data with respect to the closed ended data is “cash to cash” (i.e., the return is calculated using actual acquisition and disposition values averaged over the period the applicable assets were held, except for one close ended fund which continues to hold approximately \$100 million in assets and determines NAV using third party appraisals on an annual basis). Past performance is not indicative of future results.
